

# INSPIRATION 11m CATAMARAN

## MAST

The mast fitted to the vessel 'Smile Too' was designed, manufactured and installed by Allyacht spars.

The mast is anodized, 15.5 metre, 2 spreader fractional rig with a single forestay and 2 backstays. All electrical wiring is oversize tinned wire and the anchor light is a LED with 50,000 hr life. The mast head has a VHF aerial, TV aerial and windspeed instrument sender. The mast is also fitted with a steaming light and navigation lights.

All rigging is stainless steel, 3/8" 1x19 wire for the forestay and backstays.

The headsail is fitted to a Almast's Reefit furler and the furling line is lead aft to the cockpit with a Anderson 20ST winch.

The boom is a Selden single line reefing boom with 2 permanent reefs attached and operated from the cockpit using an Anderson 40 ST winch and Easyloc jammers.
